

**RELIABLE  
EXPERIENCED  
INNOVATIVE**

# INTRODUCTION

- A renowned name at its ts wake, **Bandma** is a packaging machine importer based in Delhi that specializes in packaging equipment and machinery for the packaging need and requirement of industries.
- **Bandma** is always committed to offer the best packaging equipment and after sales service.
- **Bandma** is a 25 years old enterprise under the ablest guidance and leadership of Mr. Sanjay Jain, a veteran in packaging industry in India, has just not emerged as a leading packaging sealing machine supplier in India but also earned laurels and appreciation for its quality services.

# OUR PRODUCTS

1. Strapping Machine
2. Wrapping Machine (Stretch)
3. Taping & Erector
4. Wrapping Machine (Shrink)
5. Conveyors
6. Tools and Consumables
  - I. Strapping  
(Polyester – PP, PET & Steel)
  - II. Stretch Films
  - III. Shrink film

# STRAPPING MACHINES

**SEMI – AUTOMATIC  
STRAPPING MACHINE**

**FULLY – AUTOMATIC (OFFLINE)  
STRAPPING MACHINE**

**FULLY – AUTOMATIC (ONLINE) STRAPPING  
MACHINE**

# WRAPPING MACHINE (STRETCH)

## Our products including

- Semi-Automatic Stretch Wrappers
- Automatic Pallet Stretch Wrapper with Turn Table
- Automatic Pallet Stretch Wrapping with Rotating Arm
- Automatic Pallet Stretch Wrapper for 3-D Reel Wrapping
- Spiral Wrapping Machine
- Coil Wrapping Machine

# WRAPPING MACHINE (SHRINK)

## Our products including

- Semi-Automatic Stretch Wrappers
- Automatic Pallet Stretch Wrapper with Turn Table
- Automatic Pallet Stretch Wrapping with Rotating Arm
- Automatic Pallet Stretch Wrapper for 3-D Reel Wrapping
- Spiral Wrapping Machine
- Coil Wrapping Machine

# TAPING MACHINE

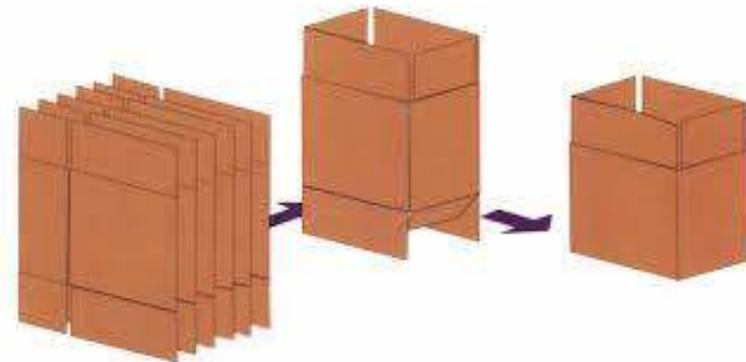

**Standard Taping Machine**

**Flap folding Taping Machine**

# CASE ERECTOR

**Case Erectors** are **case** forming machines that automatically form, fold and seal corrugated cartons from flat boxes

# CONVEYORS

FREE ROLLER  
CONVEYOR

MOTORIZED  
CONVEYOR

FLEXIBLE  
CONVEYOR

# FRICTION FEEDER / AUTOMATIC COUNTER

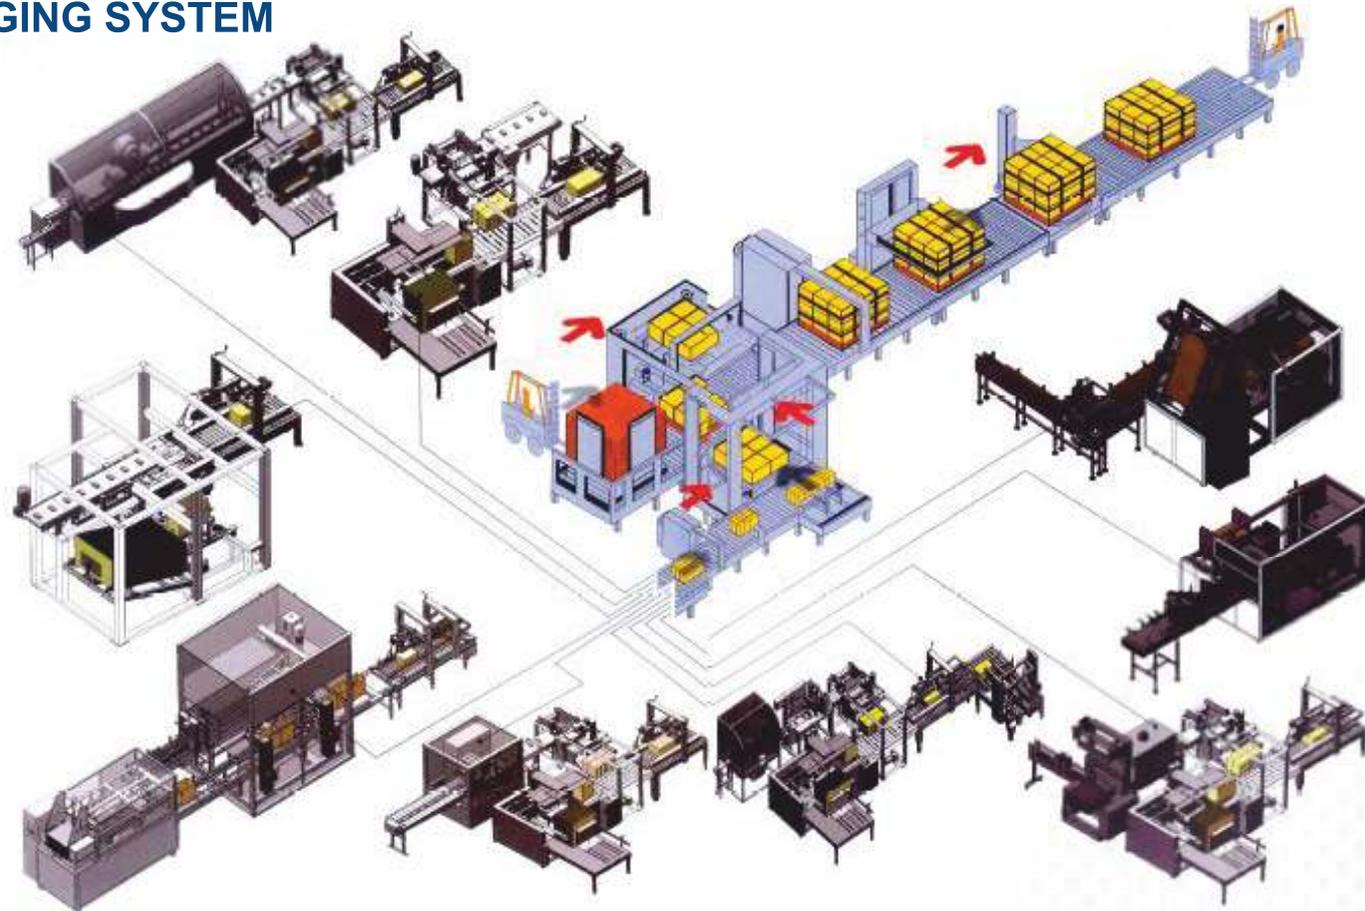

Friction feeders are ideally suited for the feeding separation and counting of flat products e.g. envelopes, phone cards, carton cuttings, inserts.

# CUSTOMISED PACKAGING LINE

PERFECT UNMANNED  
PACKAGING SYSTEM

IN-LINE SYSTEM

# TOOLS

Pneumatic Battery Operated Tool

Dispenser

Battery Operated Tool

# STRAPS

## PET STRAP

1. Available in Green color only.
2. High Tension : High Breaking Strength and welding ability
3. Surface : Available in both – Plain and Embossed
4. Specialty : Cost effective alternative for PP applications where high tension and availability is required

## PP STRAP

1. Available in every possible color.
2. Environment friendly, high quality automatic strapping for standard application.
3. High Elastic
4. High elongation : for small packaging units or applications requiring highest elongation.
5. Low Creep Elongation : for compressed packaging goods requiring low elongation

# STEEL STRAP

- Steel strapping is commonly used to bundle together durable steel coils, pavers and bricks, roll end binding, baling wire, and other metals.
- Steel strapping is extremely strong, capable of holding together heavy and bulky items securely.
- Compared to other strapping materials, the strength of steel strapping has the highest break point.
- Use Steel Strapping to get the full benefits of steel strapping, it is important to use them in the right circumstances.
- Materials lack sensitivity to abrasion from working with steel.
- Moving very stable and large heavy loads.
- Shipments contain sharp edges that may slice softer banding.
- Loading and unloading materials multiple times during transport.
- Steel strapping presents its full array of benefits when you use it under the right circumstances.
- Steel strapping is an essential component in various industries for securing heavy loads due to its high tensile strength and durability.

# FILMS

**Stretch wrap** or **stretch film** is a highly stretchable plastic **film** that is wrapped around items. The elastic recovery keeps the items tightly bound.

**Shrink wrap**, also **shrink film**, is a material made up of polymer **plastic film**. When heat is applied, it **shrinks** tightly over whatever it is covering. Heat can be applied with a handheld heat gun (electric or gas), or the product and **film** can pass through a heat tunnel on a conveyor.

# OUR SERVICES

**ENGINEERS** : We dispose of a team of experienced and highly skilled engineers, who are responsible for developing your optimal packaging machine solutions.

**TRAIL** : we offers the option of a 'trail period' for its products just in case our clients are unsure and need more time for decision-making

**INSTALLATION** : we ensure that the installation and start-up procedure is done in a professional manner.

**BREAK DOWN & REPAIRS** : In any case, if your strapping machine breaks down or stops working due to some technical errors our team of technicians will only be a phone call away.

# OUR SERVICES

## TECHNICAL TRAINING :

we offer our customers the best technical training related to all technical aspects of the project.

## MACHINE & SYSTEM RELOCATION :

Bandma's skilled technicians not only do the relocation job smoothly, but also quickly, so that your production does not have to face long break because of the relocation process.

# OUR CLIENTS

**RELAXO**

**Campus**

**MARUTI SUZUKI**

**Aqualite**

**JK PAPER LTD.**

**MACMILLAN**

**S.CHAND AND COMPANY LIMITED**

**JAI**  
Jamna Auto Industries Ltd.
